25X1A 1. Comment. Reports by another source also indicated that units of the 13th Mecz Div stationed at the Wittstock troop training grounds were employed in Perleberg during the workers' rebellion in June. The present report tends to indicate that strong elements of the 58th Mecz Regt were employed. The observations on the departure of the troops check with observations made at other posts which indicated that motor elements moved by road while truck-laying elements were transported by rail.
